

N1871

DOUBLE ELECTRIC HOB UNIT

Versatile and powerful, the Parry N1871 countertop four ring electric hob is ideal for use in professional catering establishments where a separate hob unit is required, such as cafés, takeaways, pubs and clubs. Made from high quality stainless steel, the exterior features a formed top to prevent spillage, in turn making the boiling rings and surrounding areas easier to clean. Each ring has individual heat controls with six heat settings, whilst being thermally protected to reduce the temperature when pots and pans are removed.

Unpacked weight (kg)	23
Packed weight (kg)	26
Dimensions (w x d x h) mm	600 x 610 x 217
Plug	Hardwired
