

NPEO1871**NPEO ELECTRIC OVEN WITH
N1871 4 HOB TOP**

This combined unit provides the perfect solution to your catering needs. The easy to clean hob, with its formed top and individually operated rings with six heat settings, are thermally protected to reduce the temperature when pots and pans are removed. Whilst the oven unit also features an easy-to-clean enamelled interior, the top mounted fan and graduated, drop down, triple glazed door assists with steam release.
